

How To Setup Exchange on your iPhone

This tutorial will help you install your HSC Exchange email onto your iPhone (must have firmware 2.0).

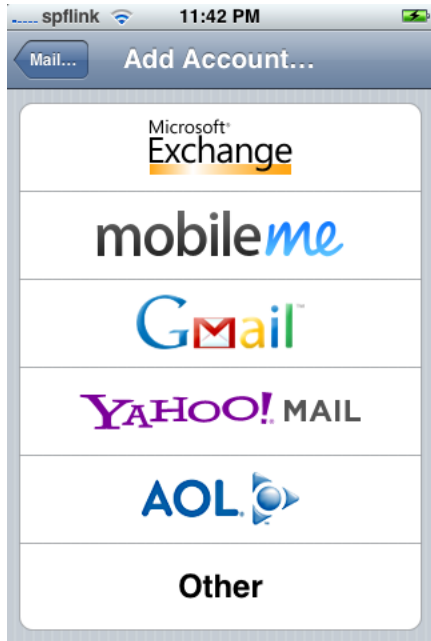

1. On your iPhone, select “**Settings**”
2. Then “**Mail, Contacts, Calendars**”

3. Then select “**Add Account**”

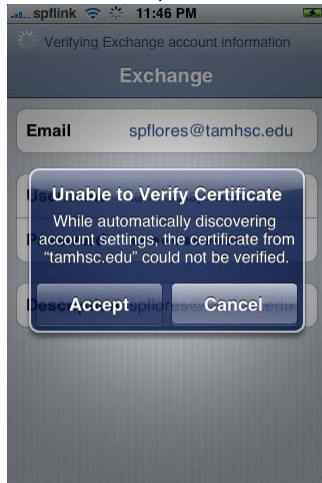

4. Then “Microsoft Exchange”

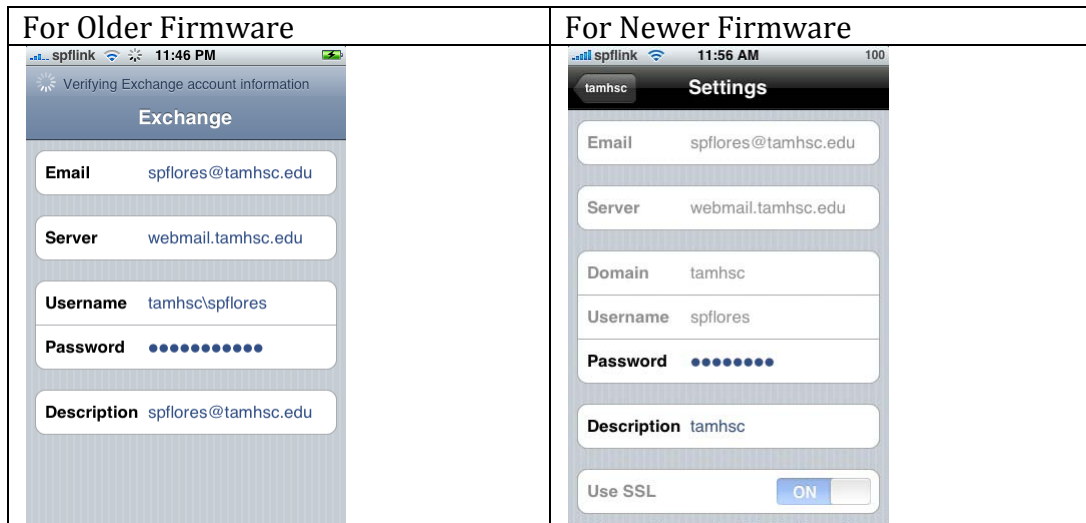

5. You will get a screen like the following, you will need to enter your account information:

For Older Firmware	For Newer Firmware
<p>The screenshot shows the 'Exchange' account setup screen for older firmware. At the top, there is a status bar with 'spflink', signal strength, Wi-Fi, and the time '11:45 PM'. Below the status bar is a navigation bar with 'Exchange' in the center. The main content area is a form with the following fields: 'Email' (username@medicine.tam...), 'Username' (tamhsc\username), 'Password' (represented by dots), and 'Description' (username@medicine.tam...).</p>	<p>The screenshot shows the 'Exchange' account setup screen for newer firmware. 6. When done, select “**Next**”, you get the following, select “**Accept**”

7. A “**Server**” box will appear, enter “**webmail.tamhsc.edu**” and then select “**Next**”

8. A window will appear asking what you would like to sync, once you have made your selection, select “**Save**”

CAUTION: When syncing your contacts ALL of your contacts on your phone will be replaced by the contacts within your Exchange profile. We recommend you backup and\or transfer ALL of your contacts into your Exchange profile before performing this. Otherwise unselect “Contacts” for syncing

9. Your iPhone is now setup to receive push email from your HSC Exchange account.
